

Quality Enclosures

LARGE PROJECT QUOTE DISCLAIMER: Please read carefully

rev. 4.14.25

STANDARD SIZE DOORS:

When a quote is created using a standard or “stock” size door, changes to the door that require the door to be fabricated from a non-standard piece of glass will result in a price change. Examples of changes to a door that may require non-standard fabrication can include (but are not limited to) changes to dimensions, out-of-plumb conditions, and changes to hole or hinge fabrication.

OUT-OF-SQUARE CONDITIONS:

If a quote has been produced based on plumb opening sizes and an outage measurement is added at the time of order, an additional charge for this fabrication may be applied to those orders.

LIMITED AVAILABILITY:

A minimum of 90 days advance notice of the project’s start date is needed to ensure appropriate material levels for fabricating projects. If advance notice is not provided, an extended lead time may be required if a quote is created for an item with limited availability.

THIRD-PARTY VENDOR ITEMS:

If a quote includes materials that need to be produced by a third-party vendor (not Quality Enclosures-branded items), final pricing and availability may be subject to change. If pre-ordered in stock-level quantity for a specific project, all allocated material must be purchased during the project. A restocking or return fee may be applied if the project is canceled. A deposit or pre-payment may be required for custom finishes outside the industry standard.

JOBSITE DELIVERY:

Addresses for jobsite delivery must be communicated in advance and are subject to approval. This approval is subject to change based on market conditions and must follow the following guidelines:

- Delivery destination over 200 one-way miles from a Quality Enclosures location requires approval
- Delivery destination must be in one of the following states: Florida, Georgia, South Carolina, North Carolina, Tennessee
- **A delivery fee may be calculated on a per-project basis**

QUOTE EFFECTIVE DATE:

Quoted prices for projects are guaranteed to be honored for 6 months from the time of the quote, not for the project's duration. If a price increase occurs within the 6-month honor period, it will be capped at 8%. After 6 months, prices are subject to revision and a new quote must be issued. Revised quotes must be resubmitted and approved at least 2 months before commitment to production. Quotes for non-project orders will adhere to a 90-day expiration schedule.

Quality Enclosures shall not be liable for inability to meet pricing, material availability, or lead time requirements due to a Force Majeure event. All quoted prices and agreements will be considered null and void, and a revised quote will be required.
