

QEC Direct Order -Hardware Unfiltered Selection Search Feature

When in the Direct Order screen select “Unfiltered Selection” from the “Select Hardware to Add” list:

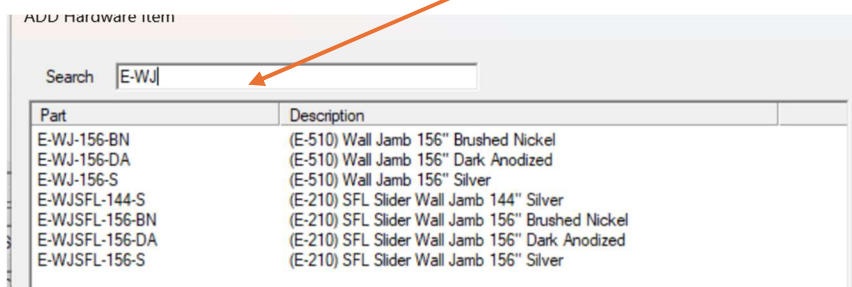

In the search field type the *actual part number*, a *portion of the part number*, or a *portion of the part description*.

Example: Atlantic Wall Jamb

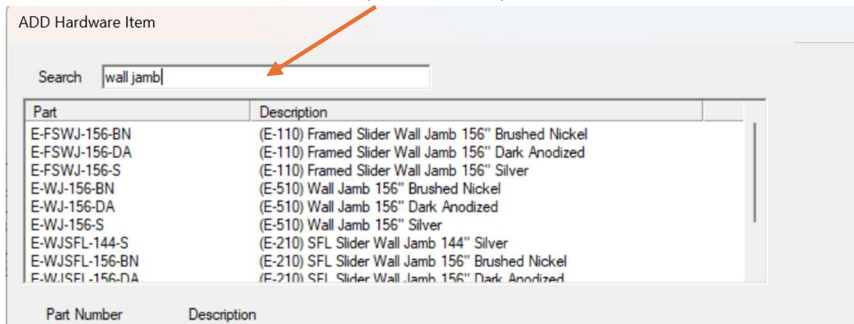

The full new part number. **(E-510)**

A portion of the old part number. **(E-WJ)**

A portion of the description. **(wall jamb)**

QEC Direct Order -Hardware Unfiltered Selection Search Feature

Tip- When using this search feature be specific to reduce the number of items that populate.

Example: If you are searching for an Atlantic- **90 Degree Header Bracket**, search for “header bracket” instead of “90”

The search for “90” brings up over 40 items to select from.

M-S-FDSS	Drip Sweep / Header Bracket / Sill Guide Screw
M-S-FDSS-DA	Drip Sweep / Header Bracket / Sill Guide Screw - DA

- ✓ The more specific you are, the fewer items will populate.
- ✓ Double-check yourself and choose the correct finish when selecting a part that has a color.
- ✓ Cross-referencing with configurations in the Atlantic, Gulf, Pacific, etc. will still be helpful when identifying part numbers.
